SUMMARY

UX/UI Designer with a fine arts foundation and experience shipping real products — from iOS apps to AI-powered web tools. Skilled in translating user needs into clean, intuitive interfaces through wireframing, prototyping, and iterative design. Comfortable working with AI-assisted workflows and vibe-coding from prototype to production.

EXPERIENCE

Graphic Design Intern

May 2025 – July 2025

DArt Five — New York, NY

- Designed digital and print assets across multiple campaigns, ensuring brand consistency
 - Created UI-focused layouts with clear visual hierarchy, improving content readability
 - Iterated on designs through structured feedback cycles with senior designers and stakeholders
 - Collaborated with the creative team to deliver assets on deadline for concurrent projects
-

SELECTED PROJECTS

45 — iOS Proximity Meetup App

2026 · iOS App

- Designed and built a time-boxed, proximity-based meetup app solo from concept to functional prototype
- Created full design system, user flows, and interaction patterns for real-time social coordination
- Handled end-to-end product design: research, wireframes, UI, prototyping, and front-end implementation

Pickle — AI-Powered Decision Engine

2026 · Web App

- Designed an AI decision tool that delivers source-cited recommendations to replace research paralysis
 - Defined UX for complex input flows and structured AI-generated results into a clear, scannable interface
 - Built end-to-end: information architecture, UI design, and front-end development
-
